Update University Council

Last Thursday, the fourth University Council of this academic year took place. In this University Council the Executive Board responded to **our initiative regarding the extension of the exchange procedure**. The Executive Board responded very positively and shares Front's vision on how important it is to include motivation and extracurricular activities in the selection procedure. A working group will now be created, considering how this new selection procedure will take shape.

Furthermore, this University Council we discussed the **Yearly Report**. This report looked back on the past year and reflected on the quality agreements. In addition, developments regarding digitalisation and well-being were discussed.

Without FRONT, no ...

Why vote? Why FRONT?

Every year, the University Council elections take place in April. As a student, you get to choose which of your fellow students will represent you in the University Council next year.

In the University Council, we decide on university-wide policy. Make **your voice** heard and let us know if you want to see certain things changed at the university. That way, we can raise it in the University Council.

Student Party Front stands for the vision of the **active student**. We believe it is incredibly important for students to develop and broaden their network besides their studies. To best represent the active student, we use the following three pillars: digitalisation, internationalisation and living campus.

As a student, do you recognise yourself in this vision and do you want us to represent you in the University Council? Then **vote FRONT on April 11th, 12th and 13th!**

DO NOT FORGET TO VOTE!
